Ultraflexi Code Machines, June 2014.

To Install:

Open MalTrack Install CD / ZIP folder;

Double-Click "Setup.exe" file;

Type in the Software Purchase Code;

Click "Setup" button;

Follow directions to install the Components;

After installation of the Components, Read Agreement, Click "Next";

Accept Setup Agreement after reading it;

Click "Install" button to complete MalTrack's installation;

Request Information (Tag and Key) is generated and written to a file on your Desktop (MalTrack Request Information.txt).

Send your User-ID, Date of payment, Version of Operating System, Request Tag and Key through any of the means specified in the above page to obtain your Activation Key.

DETAILS

=====

* Send the following accurate information to enable the processing and response to your Request Key(s):

1. User-ID;
(supplied with the setup package,
and specified in brackets with 'Name of Depositor' during payment
for activation code(s))
2. Date of bank payment;
(Please note: The request for activation for the first installation
made from this CD has already been paid for, i.e. incorporated into
the cost of purchasing this install CD. Second and subsequent
installations and request for activation would attract charges.)

* Please make contact through the phone lines and/or e-mail address
specified above to find out the most recent costs, channel and
mode of payment for before requesting for license activations.
3. Request Tag(s) and Key(s);
4. Version(s) of your Operating System (e.g. Windows XP, Vista, 7 or 8).

FOR LARGE MULTIPLE INSTALLATIONS

=====

Assign a serial number to all your computers for unique identity

In Microsoft Excel, type the Request Tags, Keys and item (4) above against their respective serial numbers in a table format.

*** Registration code and date of bank payment are common to all computers. They may therefore not be specified in the table, but written separately in a line below the table.

Save the information in Microsoft Excel file format.

Name it "Request Information.xls", and send the file as an attachment to the specified e-mail address.

The response would follow same format as above, and be sent as an attachment to the sender's address.

To Activate:

Open MalTrack Install CD / ZIP folder;

Double-Click "Setup.exe" file;

Type in the Software Purchase Code;

Click "Activate" button;

Type in the received Activation Key;
